# WILSON TOADIES TO GERMANS

## PRESIDENT IS DENOUNCED FOR HIS ONE-SIDED ACTION

### RUMANIA CAPTURES CITY ON THE DANUBE

Occupation of Orsova By Same Power Conceded By Bulgarian War Office

(By Associated Press.)

LONDON, Sept. 8.—A Times dispatch states the Rumanians have occupied Orsova, an important Hungarian town on the Danube, one of the principal points on the lower Danube, having considerable commercial importance.

(By Associated Press.)

LONDON, Sept. 8.—Bulgarian-German forces invading eastern Rumania captured the fortress of Dobruja (Bardj) and seaports of Balj, Kanarna and Kali Akri. The occupation of Orsova by Rumanians is conceded.

(By Associated Press.)

LONDON, Sept. 8.—An official report says that the British of southwest Lille raided the German trenches in southeast Guinchy, near Fichenbourg l'Avoue, inflicting severe losses to the occupants.

Renewed particularly violent attacks made by the Germans on the Somme front in an effort to regain ground won by French. British as-

saults were futile. The French are holding their ground everywhere.

(By Associated Press.)

BERLIN, Sept. 8.—French and Germans again engaged in infantry fighting in the region south of the river Somme. The French were repulsed with great losses with the exception of a point west of Berny, where portions of the trenches remain in the hands of the French.

(By Associated Press.)

PETROGRAD, Sept. 8.—The Russians have crossed the Dvina, north of Dvinsk. They were attacked repeatedly by the Germans, but succeeded in holding the captured positions.

(By Associated Press.)

LONDON, Sept. 8.—The beginning of a great battle in southeastern Rumania where the Russians have taken the offensive against the Bulgarians and Germans is reported.

### UNCLE SAM OWNS MONOPOLY TRACKS

(By Associated Press.)

WASHINGTON, Sept. 8.—Philippine bonds soon will be offered the public for sale by the War department to pay for the railroad bought by the insular government for \$4,000,000. The railways have a trackage of 350 miles extending in three directions from Manila, and is the only railway in Luzon island. Geographical locations virtually precludes competing new lines.

### GERMANY GIVES UP TWO AFRICAN PORTS

(By Associated Press.)

LONDON, Sept. 8.—The ports of Kilwa Kivine and Kilwa Kisiwani, in German East Africa, respectively 150 and 175 miles south of Dar-Es-Salaam, have surrendered to the British under the threat of a bombardment, according to an official statement issued last night giving details of the recent surrender of Dar-Es-Salaam.

### THREE STEAMERS SUNK ONLY ONE CREW SAVED

(By Associated Press.)

LONDON, Sept. 8.—Three British steamers are reported torpedoed. The Strathgairn, Ellerman and the liner Tagus were sunk. The crew of the Strathgairn was saved. It is reported that the steamer Hazelwood also was sunk.

### TROLLEY STRIKE PROVES FAILURE

(By Associated Press.)

NEW YORK, Sept. 8.—With the subway and elevated trains operated apparently on a normal schedule, traction officials insisted today the strike was broken. Fifty per cent of the surface cars are running, the company announced. Police reports indicate the walkout is not having a widespread effect.

### VILLA IS A MYTH SAYS GEN. PERSHING

(By Associated Press.)

PERSHING HEADQUARTERS, Sept. 8.—Border reports concerning Villa's move through Santa Clara canyon toward Laguna are not confirmed by investigation, Gen. Pershing announced today when he returned to field headquarters after completing an inspection of American camps in Mexico.

### MUSTERING OUT THE GUARDSMEN

(By Associated Press.)

WASHINGTON, Sept. 8.—Orders were issued by the War department today for the discharge from federal service as soon as practicable of 12 national guard regiments comprising about 15,000 men recently withdrawn to their home states from the Mexican border and a number of smaller organizations of some 1500 college and university students.

Orders for the mustering out of additional units are expected to follow soon. The next regiment to leave the federal service will be the Fourteenth New York Infantry, now at camp near Fishkill, N. Y., which will go as soon as its members are freed from danger of paratyphoid contagion. There are about 40,000 guardsmen still in state mobilization camps and there probably will be dispatched to

### British Trade Retaliation Regarded As a Blow For Assassins of Lusitania

(By Associated Press.)

WASHINGTON, Sept. 8.—Congress closed today after authorizing appropriations of \$1,626,439,210, which, with obligations authorized for the future, makes the total \$1,858,384,485. These figures were denounced in speeches by Representative Gillette and defended by Fitzgerald as half a billion greater than any session of Republican Congress.

The Senate adjourned sine die at 9:59 and the House at 10 o'clock. Shortly after nine the president went to the capitol to sign bills.

Senator Owen announced the Senate would not further press the corrupt practices bill this session, but

let it remain as unfinished business to call up at the next session.

In a statement following adjournment the president called attention to the "helpful humane legislation" passed and declared that while he regretted the additional legislation dealing with the recent dispute between the railroads and their employees, had it not been completed he had every reason to believe the question would be taken up immediately after Congress reassembles.

The revenue bill as signed by President Wilson contains drastic provisions empowering the president to retaliate against foreign interference with American commerce, cre-

ates a non-partisan tariff commission, increases the duty on dyestuffs to encourage their manufacture in the United States, provides means to prevent dumping of cheap foreign made goods into American markets after the war, and provides for income, inheritance, munitions, corporation stock, liquor and miscellaneous internal revenue taxes.

During consideration of the report in the Senate, Senator Chamberlain, of Oregon, protested vigorously against elimination by the conference committee of a retaliatory provision against Canadian control of Pacific coast fisheries, and Representatives

(Continued on Page 4.)

### N. Y. LAD CHALLENGES WELSH FOR JANUARY 1

(By Associated Press.)

KANSAS CITY, Sept. 8.—An offer was wired last night by Scotty Monteith, manager of Johnny Dundee, New York light weight, for a match in New Orleans on January 1, with Freddie Welsh, of England, the title holder.

### CANUCK LOBBY IN WASHINGTON

(By Associated Press.)

WASHINGTON, Sept. 8.—A resolution directing the Senate lobby committee to investigate the activities of alleged foreign lobbying opposing retaliatory activities of the revenue bill against Canadian fisheries was passed by the Senate.

Senator Reed, as a Democrat, said it is high time for the American government to show other nations that it regarded as offensive any efforts to influence legislation in Congress.

### CAMELS COMING IN SPECIAL TRAIN

(By Associated Press.)

CHICAGO, Sept. 8.—The Prohibition party's special train which will carry J. Frank Hanly, of Indiana, candidate for president, and Ira Landrith, of Tennessee, candidate for vice president, and other party leaders, on a two months' coast to coast speaking campaign, left Chicago at 7:59 o'clock this morning. Mr. Hanly and Mr. Landrith arrived in Chicago yesterday and were busy conferring with party leaders preparatory to the long trip.

The special train will travel 9000 miles and make nearly 1000 stops before the trip ends at Indianapolis on November 6. One month will be spent in a trip to the Pacific coast.

### TEDDY WILL KEEP UP HIS SPEECHES

(By Associated Press.)

NEW YORK, Sept. 8.—Col. Roosevelt, according to information at Republican national headquarters, has been asked to take a more active part in the Hughes campaign and consented to a considerable addition in the number of speeches already arranged.

The border very soon to relieve men now serving there. Secy. Baker favors giving all the state troops a chance for the training to be acquired on the patrol line.

The order releasing the college men requires them to go to their home mobilization camps for mustering out and resuming their status in the state guards.

### WEST INDIES PURCHASE RATIFIED BY SENATE

(By Associated Press.)

WASHINGTON, Sept. 8.—The treaty providing for the purchase of the Danish West Indies for \$25,000,000 was ratified by the Senate last night.

### LARGE NUMBER FOR OPENING

The Normal school, under the supervision of Mrs. Edith Brown, will open Tuesday morning in the old high school building at 9 o'clock with an enrollment of eight. The students who have registered for this course are: Mrs. Henry Schmidt, Misses Loretta Walsh, Addie Murphy, Fannie Holmes, Laura Hill, Cora Johnson and several others. Mrs. Brown is an enthusiastic worker and believes that there is splendid material for good teachers.

### SUFFRAGISTS END NATIONAL FIGHT

(By Associated Press.)

ATLANTIC CITY, Sept. 8.—The National American Woman Suffrage association convention defeated by an overwhelming vote a resolution that the association in the present national campaign support only those candidates for national office who pledge their support to the passage of the Anthony amendment.

The resolution was acted on only after a long and heated debate on the part taken by many suffrage leaders. Several claimed, if passed, the resolution would endanger suffrage amendments pending in several states.

### POWER PLANT PLANS ALMOST COMPLETED

New York Men Prepared to Spend \$350,000 in Erecting Tonopah Station

A centrally located power plant actuated by crude oil internal combustion engines will be established and in operation before the end of the year, according to Mr. Oscar L. Daube, the New York broker and investment agent, who promoted the sale of scores of claims in the extreme western end of the Tonopah district, including the Great Western. Mr. Daube is here for the purpose of closing contracts with the leading mining companies and his proposition is received with enthusiasm, as it promises to solve the trouble of securing an uninterrupted service at all hours of day and night and at all seasons of the year.

The plans provide for the construction of a plant on the flat west of the railroad station where plenty of yard room for switching facilities could be provided. It is estimated that the cost of the plant contemplated would be between \$300,000 and \$350,000, all of which has been subscribed.

"We propose using the Bollinger inner combustion engine, a new type

of the Deisel engine and much more effective," explained Mr. Daube this morning in discussing the subject with a group of mine operators. "The engine would have to come from Sweden, but it would be quicker to place the order there rather than to trust to American manufacturers, even providing the latter were in a position to accept such a contract. This engine burns the cheapest crude oil and we believe we can make it an object for all mine owners to join in this enterprise. For instance, one of the advantages would be to avoid stoppages at critical times. Every time the power went off at the Great Western it just happened it was long enough to flood the mine and compel us to install expensive machinery to retrieve lost ground. Had the plant been a local one the disturbance would not have lasted more than a few minutes and the Great Western would have been spared thousands of dollars. Other mines have suffered in the same way. The first unit of the plant will call for 600 to 800 horsepower."

### STUDENT AVIATORS SUSTAIN A FALL

(By Associated Press.)

NEW YORK, Sept. 8.—Flying at a height of 600 feet over Governors island a biplane containing J. Walter Struthers and Charles W. Wyman, student aviators training for the aero reserve corps, became unmanageable and fell. Each has a broken leg and numerous cuts, with possible internal injuries. They are expected to recover.

### BORDER TROUBLES GETTING AIRED

(By Associated Press.)

NEW LONDON, Conn., Sept. 8.—Ideas relative to the maintenance of order on the border were exchanged today by the Mexican American joint commission appointed to settle the border difficulty. It is regarded probable that the Mexican delegates soon will make a formal request for the withdrawal of Pershing's punitive expedition from Mexican territory.

A statement wherein it was said the commissioners devoted time to "consideration of plans respecting mutual protection on the border" was given out this afternoon.

Stress was laid on establishing lines of troops on each side of the border, exchange of information respecting bandit movements and otherwise to co-operate.

### EYE INJURED IN THE CONSOLIDATED MILL

Harry H. Lee was injured yesterday at 2:30 p. m. while working in the Goldfield Consolidated mill at Goldfield. A small piece of steel became detached from a battery and entered Lee's right eye. Physicians became detached from a battery and entered Lee's right eye. Physicians in the gold camp refused to operate and Lee left for Lane's hospital this morning and will be treated by the eminent oculist, Dr. Black.

### BRUSSELS OBJECT OF AN AIR ATTACK

(By Associated Press.)

THE HAGUE, Netherlands, Sept. 8. Brussels was bombed by a squadron of 15 aeroplanes Wednesday, according to an eye witness of the raid who has arrived here. To the Associated Press he said he was sitting with friends in a hotel in the center of the city when the squadron appeared over the city. Anti-aircraft guns immediately went into action. It then was 1 o'clock in the morning, he said, and some time previously soldiers had issued warnings for the extinguishment of all lights.

"This was the most important raid in a long while," he said. Smaller affairs occur almost daily. These frequent air visits by entente aeroplanes hearten the Belgian people wonderfully and inevitably lead to exaggerated notions of the impending departure of the Germans.
